Work Experience

GoTo, Inc · Staff Product Designer · Jan 2022 - Present

- Design lead for GoTo's first AI product, **GoTo Connect AI Receptionist**; improved receptionist handle rate from **50% → 75% in two quarters**.
- Led design for **GoTo Connect CX** from inception to seven-figure ARR; increased **campaign completion rate from 50% → 80% and campaign adoption rate from 30% → 55%** through iterative UX and feature enhancements.
- Create high-fidelity prototypes, partner with UX research to design research plans, and conduct usability tests to validate concepts and refine product direction.
- **Facilitate workshops** with product, engineering, and design to build shared understanding of user problems, define success metrics, brainstorm solutions, and guide early product direction.

Contract Product Designer · July 2021 - Dec 2021

- Worked with product teams to design new functionality and develop early concepts for upcoming products.
- Clients: **Grow.com, Bucket List Studios, WindowBook.com**

Grow.com · Sr. User Experience Designer · Oct 2017 – July 2021

- Researched, designed, and tested a new Metric Builder, **reducing average metric build time by 50% for users**.
- Designed Grow's **dataset builder, data warehouse**, and numerous UX improvements that made data preparation and visualization accessible to non-technical users.
- **First design hire**; established Grow's UX research practice and conducted qualitative and quantitative studies and usability tests.
- Partnered with leadership to develop, validate, and refine product strategy and long-term vision.

Workfront · Sr. User Experience Designer · Aug 2014 – Dec 2015, Aug 2016 - Sept 2017

- Led UX design for Workfront DAM.
- Designed Workfront's iOS and Android apps from early concepts through release.
- Delivered UX improvements and new functionality across the Workfront web application, mobile apps, and Adobe integrations.
- Regularly conducted and participated in user research and usability testing.

Yelp, Inc · Software Engineering Intern · May 2013 – Aug 2013

- Designed and implemented an improved mobile signup flow that **doubled sign-up conversion**.

Rackspace Hosting, Inc · Application Development Intern · May 2011 – Aug 2011

- Implemented and released the Rackspace Cloud Android app, Rackspace's first Android application.

Education

Masters of Human-Computer Interaction · Carnegie Mellon University · August 2014 · 4.00 GPA

B.S. Computer Science with Honors · The University of Texas at Austin · May 2013 · GPA – 3.84 GPA
